Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1-5,8-11,14-36,46-50,52-57,70-75 and 77-88.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 8-11, 14-31, 46-50, 52-57, 70-75 and 77-82, drawn to a system for making fiber optic connections in a subterranean well, classified in class 385, subclass 53.
 - II. Claims 32-36 and 83-88, drawn to a method of making fiber optic connections in a subterranean well, classified in class 29.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
3. A telephone call was made to Marlin Smith (Reg. No. 38,310) on 08/11/06 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh-Tam T. Le whose telephone number is 571-272-2094. The examiner can normally be reached on 7:30-5:00.
